PROFILE

A highly motivated and quality-oriented physics teacher resource, having skills to develop analytical and critical thinking in my students. I have proven abilities of teamwork, service, and class management through commendable performance. I am performance driven, personal astute in developing learning strategies, special-needs instruction, and organising activities. Demonstrated ability to leverage hands-on expertise to execute study plans, known team leader with demonstrated background in curriculum development and leading the mathematics department to improve classroom practises. Currently tutoring college and high school students
